

PC HEROES

TRUSTED BACKUP & RECOVERY SOLUTIONS

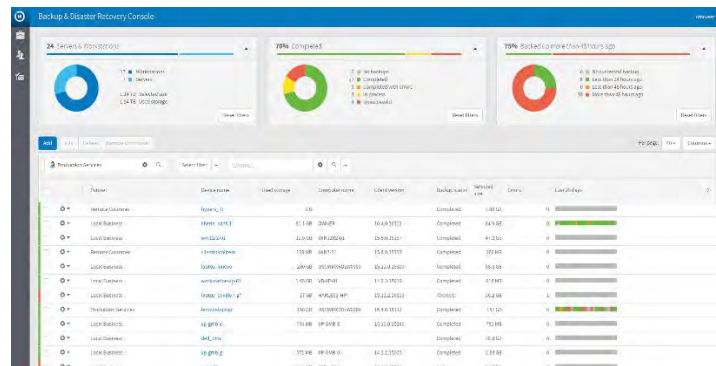

Deletion or Distruction - Managed Backups offer you peace of mind that your data is safe, no matter what the reason for loss.

Supporting Small and Medium businesses - we can provide comprehensive, and automated backup packages to suite many budgets.

- **Fully Automated**, meaning no need for any "end of day" backup.
- **Archiving and File History**. Recover your data from nearly any point in time, whether it is just one file or a full restore.
- **Server Disaster Recovery** with fast Cloud VM Replication.
- **Cloud Based**, which means its immune to virtually any form of destruction.
- **Cost Effective** with packages to suite many budgets.
- **Military Grade Encrypted** on all cloud based backups.
- **Fully Managed System**. We monitor the software to ensure it is always working.

You can trust our experience and that we understand the importance of your data - whether it is mission critical operations data or precious family photos. You can relax knowing its safe - guarded by military grade encryption.

Benefits of a Managed Backup

Low Cost of Ownership

A fully managed data backup and restore solution for the same or less than a capital purchase that you have to manage yourself.

Total Peace of Mind

Thanks to centralized management and monitoring, you can rest assured that your business data is safe and being handled by experts. Which means you can focus on your business.

Reduced Bandwidth

While most solutions require full backups periodically or in some cases daily, our solution only requires an initial full backup then from that point stores only incremental file changes.

Safeguard Your Business Information

Since the solution takes backups in terms of changes, you will be able to recover files, even older revisions.

Ensure Business Continuity

Backup your most critical business applications to ensure that you can get quick access to restore systems that would have the most impact to your day-to-day operations if they were down.

Increase Productivity and Decrease Downtime

With our rapid restore capabilities, we will minimize the costs associated with lost productivity and downtime.
